Kodak leadership in photography is strikingly demonstrated by every important advance in this science.

*A
Wonderful
Combination!*

PUPILLE and **PANATOMIC**

KODAK PUPILLE is the leading miniature camera, combining precision construction with numerous features which insure amazing versatility.

Prices from £17/10/- (f/3.5 lens).

KODAK PANATOMIC is the Kodak fine-grain Panchromatic Film for miniature cameras, combining full Panchromatic richness of color reproduction with grain of almost atomic fineness, enabling to-day's "little-film" negatives to produce enlargements of sensational size and of magnificent quality.

See also the Kodak Vollenda. Prices from £5/15/-.

Enquiries invited and fullest information available on any photographic subject.

The Continuous Towel Service

AS USED BY BANKS,
CLUBS, HOTELS, ETC.

At a very low cost, for service only, we instal in your toilets, cabinets provided with a roll of towelling, which represents 112 towels. A press of a button releases a portion of the towelling, and the soiled portion automatically disappears.

The installation of this service will prevent your laundry difficulties and towel losses.

THIS JOURNAL.

This issue, No. 3, completes the first volume of our magazine. We advise owners of the journal to keep their copies, and to file them with care or to have them bound.

Apart from the value of the book for reference, it constitutes the first volume of a successful new journal, already out of print. Two impressions were issued of number one, and one large impression of number two, the single impression in that case being equal to the two earlier impressions. We have no copies available; unsold copies of the second impression of the first number were rapidly cleared at sixpence a copy, whilst within a week of issue we were calling in unsold copies of number two from schools that had been slow in disposing of them, and were forwarding them elsewhere. The journal is sold at much less than the cost of production (the difference being met by the advertisers), but we have been able to keep it at a nominal price only on account of the big issues; teachers and students are thanked for the co-operation which has made this possible.

The journal has a wide circulation throughout the Commonwealth and New Zealand, and we could dispose of double the number now printed; that, however, would then mean an increase in the charge to be made, for reasons already stated—unless we increased advertisements correspondingly. We could do that—but we prefer to be conservative in our acceptance of advertising matter.

We thankfully regret, then, that we are not able to supply back numbers, and ask you to send in your bulk orders for this issue as soon as practicable.

Will you please send in your subscriptions now for Volume 2, the first number of which will appear in September.

Again—keep the issues you have at present; they will increase in value.
