KEYWORDS: Chemistry Education Research & Practice, RACI

WORKSHOP ACTIVITIES

This session, facilitated by members of the RACI Chemical Education Division Committee, aims to engage members of our community in a range of networking activities including:

Dissemination snapshots of recently completed project findings

Members of the community are invited to share a brief snapshot of a project completed in the past 12 months including key findings.

Networking for chemistry education research

Participants will be actively engaged in discussions around contemporary education challenges in chemistry education.

Submissions for both activities will be sought through the ChemNet community newsletter prior to the meeting.
